We've only just begun to live . . .

So much of life ahead

"Amusement to an observing mind is study."

"High aims form high characters, and great objects bring out great minds."

"It is not how much we have, but how much we enjoy that makes happiness."

"As we advance in life, we learn the limit of our abilities."

Talking it over among all of us . . .

Future Husbands???

Rhona Cohen and Ira Korch investigating SDQ of the CEEB.

Jan Levine and Carl Lundgren discuss math.

Donna O'Neill and Elisa Parker make for last minute preparations.

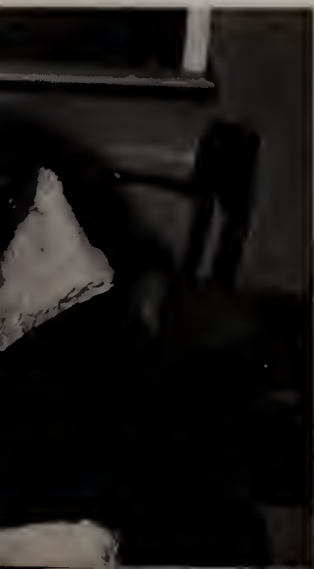

Deanne Feldman, Robin Spellberg, and Robyn Shlager cram for a gym test.

RHS faculty members appreciate the visit by Mr. Ted Pina.

Creating atomic matter.

"There can be no affinity nearer than our school."
"There is no royal road to learning; and what is life but learning?"
"How easy to be amiable in the midst of happiness and success."

**We'll find
a place
where there's room
to grow.**

"The seeds of knowledge may be planted in solitude, but must be cultivated in public."
"To know how to suggest is the art of teaching."

Sharing horizons that are new to us.
